Notes:

- 1. The production / sales volume set out in the table above were rounded, but the increase or decrease is calculated according to the original data before rounding.*
- 2. In the third quarter of 2022, the production and sales volume of methanol increased year on year, mainly because the methanol plant of Yanzhou Coal Yulin Neng Hua Co., Ltd.'s Coal Chemical Phase II Project was officially put into production at the beginning of 2022.*
- 3. The caprolactam project Yankuang Lunan Chemicals Co., Ltd. was formally put into production at the beginning of 2022, which will affect the year-on-year increase of caprolactam production.*
- 4. In the third quarter of 2022, the production and sales of crude liquid wax and stabilized light hydrocarbons decreased year on year, mainly because Shaanxi Future Energy Chemicals Co., Ltd. optimized the production process and adjusted the product structure, which results in a decrease of 37,600 tons of the production of crude liquid wax on a year on year basis, and the production of stabilized light hydrocarbons decreased by 17,800 tons on a year on year basis, respectively.*

As the operational data is influenced by various factors (including but not limited to the adjustment of the macroeconomic policy of the state, changes in domestic and overseas market conditions, seasonality, bad weather and disasters, equipment maintenance and safety inspection), the operational data for each quarter may differ substantially. The operational data may be different from those disclosed in periodical reports. The operational data disclosed in periodical reports shall prevail if there is any discrepancy. **Investors should be aware of the investment risks associated therewith.**
